NOTES:

This table reflects the allocation of the estimated Competitive Housing Tax Credit Ceiling that the Department expects to have available for allocation during the 2024 cycle. This initial ceiling is estimated using the 2023 population figure of 30,029,572 (IRS Bulletin 2023-12) (pending updates to reflect the 2024 IRS Bulletin figures) multiplied by the 2024 cap rate of \$2.90 (IRS Rev. Proc. 2023-34). The "Elderly Funding Limits" depicted are based on the 2023 HISTA data and will be revised to reflect 2024 HISTA data as soon as updated data is received by the Department. The column labeled "Final Funding Amount" is the column an Applicant can reference to determine the amount of the credit ceiling that is estimated to be available in each subregion for the 2024 cycle. The column labeled "Max Funding Request/Award Limits" reflects the estimated maximum request limit for each State sub-region. In accordance with 10 TAC §11.4(b), an Applicant cannot request or be awarded more than the amounts reflected in the column, which were established based on estimates as of December 1, 2023. These request/award limits are fixed and will not change, even if the regional funding amounts change based on future updates. Lastly, this chart will be updated as credit is returned during the year. Returned credits available to be reallocated in 2024 will be reflected in an additional column of the chart as it is updated.
