COMMUNITY SERVICES BLOCK GRANT (CSBG)

Purpose of presentation: To seek ways to coordinate services for low-income Texans.

CSBG provides funds to Community Action Agencies, nonprofit organizations and units of local government to alleviate the causes and conditions of poverty in communities and empower low-income persons to become self-sufficient. CSBG is funded by the U.S Department of Health and Human Services (USHHS). TDHCA provides 90% of its CSBG funds to Texas Community Action Agencies while five percent of CSBG funds are awarded on a competitive basis for a variety of programs that fight poverty and provide disaster relief.

- USHHS allocates, by formula, to the States.
- In Texas, the Governor has designated TDHCA to administer CSBG. In 2023, Texas received \$37 million for CSBG.
- TDHCA distributes funds, utilizing a formula which is primarily based on the poverty population of the counties served by the subrecipients.
- There are 38 CSBG subrecipients, referred to as eligible entities, serving all 254 counties in Texas. CSBG eligible entities are primarily private non-profit organizations, but also include units of local government (cities, counties, and council of governments). See attached map/list of Providers.
- In order to be eligible for services, the household income must be at or below 125% (temporarily 200%) of the federal poverty guidelines.
- Eligible entities utilize CSBG funds to administer a broad array of services and programs. Services and programs include case management, education and employment programs, utility assistance, transportation, food pantries, and the coordination of services with other providers in the community.
- In SFY 2023 (9/1/2022-8/31/2023), CSBG eligible entities in Texas assisted approximately 320,770 persons and assisted 882 persons achieve incomes above poverty on their way to self-sufficiency.

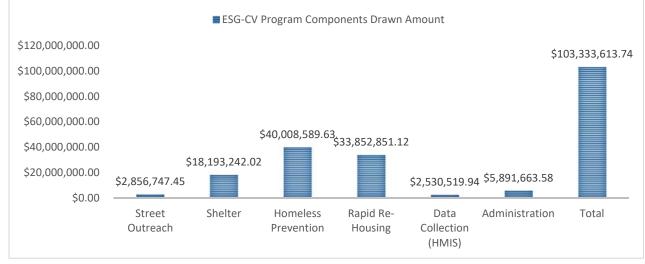

Two ways to find and connect with a CSBG provider to see what services they can provide:

- 1) TDHCA Website: "Help for Texans" located at <u>https://www.tdhca.texas.gov/help-for-texans</u>
 - a) Follow the 3 easy steps
 - i) Step 1: Select Emergency & Homeless Services
 - ii) Step 2: Enter City or County
 - iii) Step 3: Click 'Find Help'
- TDHCA Website: Click on "Master List of Community Affairs Subrecipients" to find CSBG Eligible Entities by County located at <u>https://www.tdhca.texas.gov/programs/community-affairs-division</u>.

Data Dashboard

The <u>Data Dashboard</u>, located on the Texas Homeless Network (THN) website, has been updated to reflect Q1 data from all participating CoCs, <u>with the exception of the Travis County CoC</u>.

- In Q1, Texas CoCs assisted 19,635 individuals or 16,902 households, of which 19% were unsheltered.
- In 2023, 61,365 individuals (or approximately 0.2% of the state population) were served by Texas CoCs.

Reports

- On March 15, 2023, Texas Homeless Network published a blog on the state of homelessness in Texas. This <u>report</u>, made possible by the THDSN, analyzes statewide trends on homelessness (2018-2023) and provides an overview of the homeless population served in 2023. **The report can be found on THN's website. Title: Homelessness in Texas: A Snapshot
- Texas Homeless Network will soon publish another report that focuses specifically on the Veteran population. More details to follow.

Why this Discussion?

The TX BoS CoC is dedicated to prioritizing the needs of individuals experiencing homelessness and those who work most closely with them. We recognize that the most effective approach involves resourcing, coordinating and supporting providers and response systems at the local level. The vast number of communities and extensive area within the Texas BoS present challenges that are not met by existing structures and processes. The CoC is exploring options to modernize those supports in ways that improve outcomes for people experiencing homelessness and support work done at the local level.

Document Summary

There is a lack of capacity to provide adequate support "on-the-ground" from THN

- Providers want THN to be more present in the field than they currently are (Gaps Analysis 2020)
- Communities struggle to meet the needs of people experiencing homelessness (CE Evaluation 2022)
- Providers need more support from THN (Gaps Analysis 2020)
- Current level of training offered does not meet the needs of providers. (CE Evaluation, 2022)
- No mechanism exists at the CoC level to regularly review performance data, identify areas of concern, and elevate to appropriate bodies to address. (CE Evaluation, 2022)

Adding Capacity

The Texas Balance of State (BoS) has reached the maximum allocation of their CoC planning grant based on current regulations. (The current maximum planning grant available is \$1.5 million in the FY23 CoC NOFO.)

If the BoS decides to divide the geography and register as two or more CoCs, regardless of whether operations are fully separated into multiple CoCs or the separation happens on a technical level only, it could drastically increase planning dollars.* There are a variety of ways to do this and create the impact we are hoping for.
